

The Parish Council met via Conference Cal on 28th May and considered the latest proposals for the Bowling Green.

The new plan was welcomed by all Councillors and when the Planning process gets underway full support would be given to these proposals provided the proposed conditions below can be met .

The Parish Council particularly appreciated the insertion of a play area for the village. Unlike most other communities in Rutland we have not had one for many years. However we would like to know what is Burghley's preferred approach to the ownership of the play area land and the footpath to it as well as its management. Much of this is a standard parish Council responsibility and we would be happy to manage it
